Summary

Frontend Engineer with 6+ years of commercial experience building and maintaining web applications in banking and e-commerce environments. Strong in React and Next.js development, complex user flows and performance-focused UI. Comfortable working independently on features end-to-end, collaborating closely with backend, UX and QA teams in production-critical and regulated systems.

Experience

Frontend Engineer – PKO Bank Polski (2022 – Present)

• Developed and maintained React-based applications used daily by thousands of users in a banking environment

• Implemented complex, validation-heavy forms and critical user flows with focus on reliability and performance

• Worked on applications built with React and Next.js, following internal security standards

• Integrated frontend with REST APIs in a regulated environment

• Took ownership of features from implementation to release

Frontend Engineer – Creatuity (2021 – 2022)

• Built React and Next.js-based e-commerce frontends with PWA features

• Integrated frontend applications with Magento backend systems

• Improved performance and user experience of online stores

Frontend Engineer – NuOrder (2021)

• Developed WordPress-based websites and e-commerce solutions

• Implemented responsive layouts and cross-browser compatibility

Junior / Frontend Engineer – Dekoma (2019 – 2021)

• Built landing pages and marketing websites using HTML, CSS (Sass) and JavaScript

Skills

Frontend: React, Next.js, JavaScript (ES6+), TypeScript (working knowledge), HTML, CSS (Sass)

Backend/Integration: REST API integration

Tools: Git, Jira, Figma

Additional: Python (scripting & automation – non-commercial)

Languages

Polish – Native

English – Professional working proficiency

Spanish – basic, learning in progress (non-professional)
